

Antibody Drug Target Atlas in Oncology - Where to Commercialize in a Crowded Market Place?

Published: 2010-MAR-01

Pages: 1289

Format: PDF

Price: 3400 USD (Single User License)

Description

The antibody market represents the fastest-growing segment within the pharmaceutical industry. As such it has become a complex and crowded market place. This is particularly true for the cancer market. When navigating in the competitive landscape of antibody therapeutics in oncology one has to consider available options for your own drug pipeline as well as the position of others.

This report comprises defined and up to date development strategies for 441 antibody drugs (993 projects) within the portfolio of 168 investigators, from Ceased to Marketed. The report extensively analyses 225 identified targets of antibody drugs, organized into 234 drug target profiles, and assesses them in 69 different cancer indications.

The report is written for you to understand and assess the impact of competitor entry and corresponding changes to development strategies for your own portfolio products. It serves as an external commercial advocate for pharmaceutical companies' portfolio planning and new product planning by:

- * Providing you with competitive input to the R&D organization to guide development of early product ideas and ensure efforts are aligned with business objectives
- * Assisting you to make informed decisions in selecting cancer indications that are known to be appropriate for your drug's properties
- * Analyzing, correlating and integrating valuable data sources in order to provide accurate data for valuation of pipeline, in-licensing and new business opportunities
- * Providing you with commercial analytic support for due diligence on in-licensing and acquisition opportunities
- * Integrating knowledge for you to consider the therapeutic target for the highest therapeutic outcome and return on investment

This report will also be an important part of creating and implementing a market development plan for any antibody drug in oncology to ensure that the optimal market conditions exist by the time the product is commercialized.

Table of Contents

1	Executive Summary	3
2	About Cancer Highlights	4
3	Methodologies	6
4	Table of Contents	8
4.1	List of Figures	20
4.2	List of Tables	20
5	Introduction	30
5.1	Background to the Antibody Therapeutic Market	30
5.2	The Scope of this Report	30
5.3	Definitions	35
5.4	Abbreviations	35
6	Consider the Therapeutic Target for the Highest Therapeutic Outcome and Return on Investment	36
6.1	Drug Repositioning in Oncology	36
6.2	Introduction to Antibody Therapeutic Targets in Oncology	37
6.2.1	Antigen Binding Targets	41
6.2.2	Auxiliary Transport Protein Activity Targets	42
6.2.3	B Cell Receptor Activity Targets	43
6.2.4	Carboxypeptidase Activity Targets	44

BioMarket Group - A Global Online Aggregator of Life Science Market Research

6.2.5	Catalytic Activity Targets	45	
6.2.6	Cell Adhesion Molecule Activity Targets	47	
6.2.7	Cell Adhesion Molecule Activity Targets	48	
6.2.8	Chaperone Activity Targets	63	
6.2.9	Chemokine Activity Targets	66	
6.2.10	Cofactor Binding Targets	68	
6.2.11	Complement Activity Targets	70	
6.2.12	Cysteine-Type Peptidase Activity Targets	74	
6.2.13	Cytokine Activity Targets	75	
6.2.14	Defense/immunity Protein Activity Targets	80	
6.2.15	DNA Topoisomerase Activity Targets	81	
6.2.16	Extracellular Ligand-Gated Ion Channel Activity Targets	83	
6.2.17	Extracellular Matrix Structural Constituent Targets	84	
6.2.18	G-protein Coupled Receptor Activity Targets	88	
6.2.19	Growth Factor Activity Targets	93	
6.2.20	Hormone Activity Targets	105	
6.2.21	Hydrolase Activity Targets	106	
6.2.22	Intracellular Ligand-Gated Ion Channel Activity Targets	108	
6.2.23	Isomerase Activity Targets	109	
6.2.24	Kinase Binding Targets	110	
6.2.25	Lipid Kinase Activity Targets	111	
6.2.26	Metallopeptidase Activity Targets	113	
6.2.27	MHC Class I Receptor Activity Targets	115	
6.2.28	Molecular Function Unknown Targets	116	
6.2.29	Oxidoreductase Activity Targets	133	
6.2.30	Peptidase Activity Targets	134	
6.2.31	Peptide Hormone Targets	136	
6.2.32	Protease Inhibitor Activity Targets	137	
6.2.33	Protease Inhibitor Activity Targets	138	
6.2.34	Protein Binding Targets	139	
6.2.35	Protein Serine/Threonine Kinase Activity Targets	141	
6.2.36	Receptor Activity Targets	143	
6.2.37	Receptor Binding Targets	195	
6.2.38	Receptor Signaling Complex Scaffold Activity Targets	204	
6.2.39	RNA-directed DNA Polymerase Activity Targets	207	
6.2.40	Serine-type Peptidase Activity Targets	208	
6.2.41	Structural Constituent of Cytoskeleton Targets	211	
6.2.42	T cell Receptor Activity Targets	212	
6.2.43	Transcription Factor Activity Targets	214	
6.2.44	Transcription Regulator Activity Targets	217	
6.2.45	Transmembrane Receptor Activity Targets	220	
6.2.46	Transmembrane Receptor Protein Tyrosine Kinase Activity Targets	226	
6.2.47	Transporter Activity Targets	252	
6.2.48	Unclassified Targets	256	
6.3	The Cancer Genome Project and Antibody Therapeutic Targets in Oncology	257	
6.3.1	Antibody Therapeutic Targets Present in the Cancer Gene Census and in the Catalogue of Somatic Mutations in Cancer	257	
6.4	Structure-based Drug Design in Antibody Therapeutics is Stimulated by Available Structure Data on Biological Targets	261	
6.5	Target-Target Interactions among Identified Antibody Therapeutics Targets in Oncology	265	
6.6	The Drug-Target Interactome	271	
6.7	Protein Expression Levels of Identified Antibody Therapeutic Targets in Oncology	276	
6.8	Pathway Analysis of Cancer Antibody Therapeutic Targets	281	
7	The Rise of New Products: How Mature, Unique and Clinically Validated are the Drug Target Profiles Identified in the Cancer Antibody Therapeutic Pipeline?	320	
7.1	Terminated Drug Target Profiles of Cancer Antibody Drugs	325	
7.2	Pre-Registration to being Marketed: New and Unique Drug Target Profiles of Antibody Therapeutics in Oncology	330	
7.3	Phase III Clinical Development: New and Unique Drug Target Profiles of Antibody Therapeutics in Oncology	332	
7.4	Phase II Clinical Development: New and Unique Drug Target Profiles of Antibody Therapeutics in Oncology	334	
7.5	Phase I Clinical Development: New and Unique Drug Target Profiles of Antibody Therapeutics in Oncology	339	
7.6	Preclinical Development: New and Unique Drug Target Profiles of Antibody Therapeutics in Oncology	344	
7.7	Development Profiles of All Antibody Drugs in Oncology	351	
7.8	The Competition Through Close Mechanistic Approximation of Antibody Cancer Therapeutics	375	
8	Selecting Cancer Indications for Antibody Therapeutics	384

Ordering

Order Online - <http://www.biomarketgroup.com/market-research-report/antibody-drug-target-atlas-in-oncology-where-to-commercialize-in-a-crowded-market-place.html>

Order by Fax - using the form below

Order by Post - print the order form below and send to:

BioMarket Group - A Global Online Aggregator of Life Science Market Research

BioMarket Group
Björnnäsvägen 21
11419 STOCKHOLM
SWEDEN

Fax Order Form

To place an order via fax simply print this form, fill in the information below and fax the completed form to +46-8-56849191. If you have any questions please visit <http://www.biomarketgroup.com/market-research-report/contacts/>

Order Information

Please verify that the product information is correct:

Product Name: **Antibody Drug Target Atlas in Oncology - Where to Commercialize in a Crowded Market Place?**

Web Address: <http://www.biomarketgroup.com/market-research-report/antibody-drug-target-atlas-in-oncology-where-to-commercialize-in-a-crowded-market-place.html>

Format: PDF

Price: 3400 USD (Single User License)

Delivery of hard copy or CD-ROM is subject to a Courier charge of 50 USD.

Delivery within Sweden is subject to VAT at 25%.

Contact Information

Please enter all the information below in **BLOCK CAPITALS**

Title: _____

Name: _____

Email Address:* _____

Job Title: _____

Organization: _____

EU companies must supply: VAT / BTW / MOMS

MWST / IVA / FPA number:

Address: _____

Zip Code: _____

City: _____

State: _____

Country: _____

Phone Number: _____

Fax Number: _____

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

- Pay by credit card:**
- American Express
 - Master Card
 - Visa

Cardholder Name: _____

Expiry Date (MM/YY): _____

Card Number: _____

CVV Number: _____

- Pay by check:**

Please post the check, accompanied by this form, to:
BioMarket Group
Björnnäsvägen 21
11419 STOCKHOLM
SWEDEN

- Pay by wire transfer:** Please transfer funds to:

Account number: 43521169

Swift code: HANDSESS

IBAN number: SE74 6000 0000 0000 4352 1169

Bank Address: Handelsbanken, Stockholm, Sweden

If you have a Marketing Code please enter it below:

Marketing Code: _____

Please supply purchase order number if needed:

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, Gmail)

Please note that by ordering from BioMarket Group you are agreeing to our Terms and Conditions at
